

## WORKSHEET 2C: DESIGNS ON THE FUTURE

**Instructions to students:** Think about the differences from the past to the present, try to identify what you think might change in the future and how it might affect the workplace.

**Invention/technology:**

.....

.....

**Impact on:**

| Education | Workers | Working conditions | Employers | Daily life | Society |
|-----------|---------|--------------------|-----------|------------|---------|
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |
|           |         |                    |           |            |         |

**What else do you expect the future workplace to look like?**

.....

.....

**What might workers of the future expect in their working lives?**

.....

.....

**Do you think labour standards will be better or worse?**

.....

.....

**Do you think workers will be better paid?**

.....

.....

**Please give reasons for your answers.**

.....

.....

.....

**How might new technologies affect your own future education, skills and working opportunities?**

.....

.....
